

Symposium

New Developments in Phenology

Date 26 April 2012, 14.00 – 18.30
Venue Zentralanstalt für Meteorologie und Geodynamik,
Vortragssaal Hann Haus, Hohe Warte 38, 1190 Vienna, Austria

- 14.00 - 14.10 **Michael Staudinger** director of ZAMG welcome address
- 14.10 - 14.35 **E. Kubin** Phenological observations since the Linnean time in Finland.
- 14.35 - 15.00 **H.N. Dalfes** Towards a phenology network in Turkey.
- 15.00 - 15.25 **F. Orlandi** Results from the phenological gardens of the University of Perugia.
- 15.25 - 15.50 **M. Rebetez** Impact of forest cover on increases in temperature under the canopy
- 15.50 - 16.15 **G. Wohlfahrt** Off season carbon dioxide exchange of a temperate mountain grassland in a warmer future climate
- 16.15 - 16.50 coffee break
- 16.50 - 17.15 **M.D. Schwartz** Long term assessment of spring 's onset in North America
- 17.15- 17.40 **Y. Vitasse** Elevational adaptation and plasticity in bud burst and budset timing in seedlings of major temperate tree species in the Swiss Alps
- 17.40 - 18.05 **E. Wolkovich** warming experiments underpredict plant phenological responses to climate change
- 18.05 - 18.30 **T. Rutishauser** Seasons, phenology and citizen science projects in Switzerland
- 18.30 end of symposium
